PROFESSIONAL SUMMARY

Second-year B.Tech Artificial Intelligence and Data Science student seeking a software development internship. Knowledge of C, C++, Python, Java, HTML and CSS, with completed internships in AI-driven software development and machine learning. Interested in building practical web applications and applying AI to real-world problems.

TECHNICAL AND PROFESSIONAL SKILLS

Programming Languages: C, C++, Python, Java

Web Technologies: HTML, CSS

AI and Data: Fundamentals of artificial intelligence, machine learning and data analysis

Tools: Git, GitHub, Microsoft Word, Microsoft PowerPoint

Professional Skills: Problem-solving, teamwork, communication, presentation, research and analysis

INTERNSHIP EXPERIENCE

AI Driven Software Development *1-30 May 2026*

Pantech Solutions India Pvt. Ltd.

AI and Machine Learning *Duration: 1 week*

Skillsync Pro Pvt. Ltd., Nagercoil

PROJECT CONCEPTS

Emergency Blood Donor Network

- Outlined a platform to connect hospitals with nearby blood donors during urgent requests.
- Planned matching by blood group, donor eligibility, availability and distance, with notifications and verification features.

SolarScope Rooftop Solar Potential Analyzer

- Proposed analysis of roof conditions and shading to assess rooftop suitability and estimate solar potential.
- Explored payback estimates to help households evaluate solar installations.

Smart Energy Waste Detection and Saving Platform

- Explored an AI-assisted platform to identify potential energy waste in homes and small businesses and provide practical energy-saving insights.

EDUCATION

B.Tech in Artificial Intelligence and Data Science *II Year, currently pursuing*

Mohamed Sathak Engineering College

AREAS OF INTEREST

Software Development • Full-Stack Web Development • AI Applications
Machine Learning • Data Analytics

LANGUAGES

Tamil • English
